Archive: Issue 01 : May 2012

We are **proud**to release our first "newsletter", auditorium- an archive for Audifans.net.

This is a free download and covers loads of things from the site you MAY have missed if you only view one particular model forum.

Download, enjoy, and please feedback. They will get bigger and better 😎

Two versions are available- one to read "online" and one to read "offline" (so you can print it, if you want). Considering what else is available elsewhere, and this is for free- what have you got to lose?

Grab them from the [downloads](#) section on the site;
